*"Serious about wine? A trip through the South West
reveals a surprise hidden in the woods" "*

*It is in fact an Enomatic wine dispenser machine, not one,
but six of them. Each machine dispenses eight bottles meaning
Tall Timbers officially has WA's biggest wine offering under argon.*

*Add to that, its extensive wine list has every wine –
yes, every wine – sold by the glass. We reckon each
Enomatic costs about \$20,000, so that's \$120,000 right there.
Serious investment."*
